PROJECTS

Sales Management System with HRM Integration :-

Developed a Sales Management System using Laravel, integrating sales, inventory, and customer management. Added an HRM module for employee records, attendance, and payroll. Ensured a responsive, user-friendly interface with Bootstrap and implemented role-based access for security.

Website CMS Development with CodeIgniter :-

Developed a custom Content Management System (CMS) using CodeIgniter, allowing users to easily manage website content. Integrated features like dynamic page creation, media management, and user access control for efficient website management.
